DETAILED ACTION

Applicant submission filed on 12/05/05 has been entered. Claims 1-30 are still pending in this application.

Response to Arguments

Applicant's arguments with respect to claims 1-30 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

Claims 1-30 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: Claim 1 for example, recites: receiving a client request for help without defining the element that receives the request. This statement is vague and indefinite. Furthermore, the claim recites automatically providing information to remotely access said web page. Remotely accessing a web page can't take place unless certain steps and criteria are met. For example, what element is receiving the information provided? The claims are broad, vague and indefinite. They need more clarity. Therefore, applicant is requested to correct the claims for further consideration by the examiner. All the other independent claims and the dependent claims that fall under them have somehow a problem similar to claim 1 that needs to be corrected.

Applicant and the assignee of this application are required under 37 CFR 1.105 to provide the following information that the examiner has determined is reasonably necessary to the examination of this application.

In response to this requirement, please provide the title, citation and copy of each publication that was relied upon to draft the claimed subject matter. For each publication, please provide a concise explanation of the reliance placed on that publication in distinguishing the claimed subject matter from the prior art.
